GENERAL QUESTIONS:

What do you consider to be your most important "green" accomplishment(s) or contribution(s) during your lifetime?

- REPLANTING TREES IN OUR YARDS.
- RECYCLING
- VARIOUS PROPERTY IMPROVEMENTS TO INCREASE ENERGY EFFICIENCY
- GARDENS (FLOWERS AND HOMEGROWN FOOD ITEMS)

What are the most important environmental or outdoor educational challenges facing the City of Wilmington and Clinton County in the next four years?

- CONTINUE TO FIND WAYS TO INCREASE THE ROLE AND IMPACT OF PROGRAMS SUCH AS GROW FOOD/GROW HOPE
- CONTINUE TO INCREASE OUR GREENWAYS AND TRAILS.
- INCREASE THE EDUCATIONAL IMPACT OF OUR "NATURE RESOURCES" IN THE LIVES OF OUR YOUNG PEOPLE.

What is your understanding of the concept of a Lytle Creek Greenway?

I understand it to be a project to make the entire Lytle Creek Branch that passes through our city a complete nature trail where the stream and the wildlife are both preserved and accessible to our citizens for their enjoyment and enrichment.

Do you agree or disagree with the following statements. Please feel free to make short comments in each box:

Question	Agree	Disagree
It is important to offer outdoor programming in City, County and Village Parks (e.g., nature education/hikes) in addition to organized sports programming.	Agree!	
Trees have a positive return on investment for our community.	Agree!	
Beautification of our city is important for attracting businesses as to improve our quality of life.	Agree!	
Trails are an alternative transportation facility for the city.	They can and should be; however, I'm not certain they are at this point in time.	
Trails serve many segments of the population.	I agree and I have observed that fact as I have enjoyed walking our trails.	
City and County parks are funded at the right level for the demand.	I can't agree or disagree because I have not analyzed that item. That is something I will look at on Council.	
The grant funded solar voltaic project (city's 58 KW solar power energy project) is important for many reasons.	It should and will be a test of the viability of this source of energy.	
Clean water resources should be protected, including the City's drinking water sources.	Absolutely	
Encouraging alternative energy projects in the City and County should be a priority. What kind of role does it have?	The role of public alternative energy projects can be to give high visibility to new approaches that really do work.	
Promoting energy efficiency is an important economic development initiative.	Agree!	

Thank for you completing this survey. It will be posted by March 28. Early voting starts March 29, 2011.
